SUBJECT: Point of the Mountain (South Hansen)  
Project No. 08-9923

Dear Mr. Munson:

The Resource Development Coordinating Committee (RDCC) has reviewed the proposed Bedrock Mining project, in Utah County. The Division of Air Quality comments:

This proposal is subject to Utah Air Quality Rule R307-205-7, Mining Activities. If any on-site crushing of stone occurs with this project, then a permit application, known as a Notice of Intent, should be submitted to the Executive Secretary at the Utah Division of Air Quality at 150 North, 1950 West, Salt Lake City, Utah, 84116, according to R307-401: Permits, Notice of Intent and Approval Order, of the Utah Air Quality Rules. The guidelines for preparing a NOI are available on-line at:

<http://www.airquality.utah.gov/Permits/FORMS/NOIGuide8.pdf>

Since the proposed project is in Utah County, which is a PM-10 non-attainment area, the project is also subject to R307-309: Fugitive Emissions and Fugitive Dust, of the Utah Air Quality Rules. R307-309 requires that owners or operators of a project involving the clearing or leveling of land or access haul roads that are one-quarter acre or greater in size submit a fugitive dust control plan to the Executive Secretary of the Air Quality Board for review. The fugitive dust control plan must be submitted to the Executive Secretary at the Utah Division of Air Quality at 150 North, 1950 West, Salt Lake City, Utah, 84116 for review prior to commencement of the project. A copy of the rules may be found at:

[www.rules.utah.gov/publicat/code/r307/r307.htm](http://www.rules.utah.gov/publicat/code/r307/r307.htm)

The Committee appreciates the opportunity to review this proposal. Please direct any other written questions regarding this correspondence to the Resource Development Coordinating Committee at the above address or call the Director, Judy Edwards at (801) 537-9023 or Carolyn Wright at (801) 537-923.

Sincerely,

John Harja  
Director
